

Your learning choices

This booklet is yours. Inside you'll find every subject, program and elective on offer this term — have a look, find what sparks your interest, then yarn with your PC teacher about your plan.

MY NAME

MY PC GROUP

YEAR LEVEL

1

Have a look

Flick through and mark anything that sounds like you — there are no wrong picks.

2

Have a yarn

Talkit through with your PC teacher, a youth worker, or your family — we'll walk with you.

3

Give it a go

Try something new. If it's not for you, that's okay — we can always try again.

Learning groups

Years 7–9

Every morning starts in Session 1 with your literacy and numeracy learning group. This is your home base

Warbu

Years 7–9

A bit of everything — literacy, numeracy, history, science, art, workshop and music. Explore a broad range of subjects and find the ones that make you want to learn.

What it looks like: the Warbu classroom, the art, music and workshop spaces, and excursions into the community.

To complete it: join in Session 1 activities and come along on class excursions.

Wongari

Years 7–9

Learning on the move. Literacy and numeracy with real-world applications, plus plenty of time outdoors — for learners who think best when they're active.

What it looks like: out of the classroom — fishing trips and other outdoor adventure-based learning.

To complete it: join Session 1 activities, come on excursions, and take part in projects and occasional assessments.

Senior subjects

Years 10–12

These subjects earn points towards your QCE — the Queensland Certificate of Education. Every point counts, and you can build them up at your own pace.

Short Course Literacy & Numeracy

1 QCE point each

Literacy builds reading, writing and speaking skills through exploring who you are and the world around you. **Numeracy** builds maths skills through personal finance and budgeting.

Two units per course · small group work and 1-on-1 support · finish over a semester or a year. Good fit if you want your Year 10 level of maths and English.

Essential English & Essential Maths

4 QCE points each

English covers workplace communication, community, inspirational people and influential media. **Maths** covers measurement, finance, chance, percentages and budgets.

Four units per subject, 1 point each · finish over one year or two. We encourage finishing Short Course first.

Visual Arts in Practice

4 QCE points

Respond to real-world issues through art — 2D, 3D, digital and more. Express your ideas with creativity, then write and speak about what you've made.

Weekly classes with time and teacher support · four units, 1 point each. Good fit if you love the art space.

Furnishing Skills

4 QCE points

Learn real trade skills by designing and building functional and decorative pieces for the home — industry practices, production processes, hands-on making.

Two workshop sessions a week · four units, 1 point each. Good fit if you want trade skills for future work.

Active Learning

Short Course + Cert I + Micro creds

For seniors who want flexibility. Work towards Short Course, Micro Credentials and a Certificate I in Sport and Recreation at your own pace, tutorial-style.

In class, in the gym or offsite · Short Course first, then VET studies.

YOUR SPACE, YOUR PACE

Independent learning

Prefer the art room, workshop or music space? Negotiate with staff to work independently there, moving through your personal literacy and numeracy workbooks where you feel most at home.

VET courses

Years 10–12

VET stands for Vocational Education and Training — real-world qualifications that employers value. Each certificate can earn up to 4 QCE points, depending on the competencies you complete.

Entry is subject to funding and numbers — put your name down early.

Cert II in Music

Perform, write songs, make music and learn sound production. For Years 10–12 already active in our music program — if you're new, join music in Sessions 2 and 3 first.

Cert II in Animal Studies

Delivered as a class with support from staff and trainers. Learn animal care, handling, health and welfare — a starting point for work with animals.

Hyflex courses — your pick

Self-paced online modules with staff support.

Choose what interests you most:

Cert II Community Services

Cert II Workplace Skills

Cert II Applied Digital Technology

Short Course Career Education

Skills for the world of work — interviewing, entrepreneurship and choosing a career. Two units, 1 QCE point. Cert II in Outdoor Recreation also continues for those enrolled in 2024.

More certificates across the year

Cert II Drilling & Mining · Cert III Music · Cert I Independent Living Skills · First Aid · online short courses via Coursera, Udemy and TAFE. Let staff know what you're keen on.

Pathways & transitions

Life after Flexi

Thinking about work, uni, TAFE or getting your licence? These programs help you take the next step — have a yarn with the transitions team to get started.

Job Club · Years 11 & 12

Resumes, applications and interview prep, plus guest speakers, traineeship pathways and excursions to local businesses and expos.

Micro Credentials · free, school covers costs

Barista, RSA, RSG, First Aid, Food Safety, Cyber Safety, Beauty, Construction White Card, WH&S, budgeting and renting skills, and more.

Headstart at UniSC · Years 11 & 12

Experience university early — build study skills and earn credit towards a UniSC degree while still at school.

TAFE at school · Years 10–12

One day a week at TAFE studying from a wide range of options. Ask what's on this semester.

Prep L's & driving · getting your licence

Support to get your L's and P's — road safety education, help with the Prep L's and Hazard Perception tests, and professional driving lessons to build logbook hours.

Daily programs

Running every day

These spaces are open daily—drop in, get creative, get moving, get support.

Art

Make, create and express yourself — acrylics, clay, recycled sculpture, drawing, watercolours, posca pens and more.

Gym

Open daily for independent training or a tailored program, with support from experienced staff.

Music

Learn instruments, form bands, write songs, record with industry-standard gear, and contribute to the Flexi Music Magazine.

Workshop

Build what interests you — hand and power tools, plus 3D printers, laser cutter and CNC router.

Senior learning

Daily in 2nd lesson for anyone enrolled in Short Course or QCE English and Maths — the time and 1:1 support to get those units done.

More across the year

Changes every term

Electives change each term and are shaped by your voice. Here's the kind of thing that comes around during the year — keen on something? Say so.

Outdoor adventure

Surfing, fishing, mountain biking, abseiling, canoeing, SUPing, swimming, touch footy, basketball and more.

Social & belonging

Wallflowers, Walk n Talk, Spill the T, Glow n Grow, book and movie club, op shopping, Rainbow club, Girl Squad and cultural programs.

Creative & media

Clay, murals, sewing and fashion, music tuition, ensembles and performance, plus the Flexi Music Magazine.

Making & tech

Woodwork, resin, 3D printing, electro tech, coding and programming — in the workshop and digital spaces.

Camps & big days

First Nations camp to K'gari, snow trip, Year 12 camp, Wallflowers camp — plus NAIDOC Week, Wear It Purple Day and Flexi-Fest.

Giving back

Volunteering through beach clean ups and bushcare — look after the places we love to learn in.

My week at Flexi

Everyday has its own theme and its own mix. Session 1 is your learning group or subject; Sessions 2 and 3 are yours to choose.
